

THE SWISS AMBASSADOR VISITS CENER

Sarriguren (Navarra), 5 May 2011.- The Swiss Ambassador in Spain, Urs Ziswler, has visited the headquarters of the National Renewable Energy Centre in Sarriguren today, accompanied by Markus Schaub, Swiss Consul in Bilbao and by Javier Belarra, from the Dept. of Innovation, Enterprise and Employment of the Government of Navarra. On their arrival at the centre they were received by the Director General of CENER, Jose Javier Armendáriz.

During the visit, which has included a run through the solar panel and module test and characterisation laboratory and the biofuel laboratories, representatives from the Swiss Embassy have expressed their interest in organising a meeting of business people from their country at the CENER facilities, to thus analyse possible collaboration channels.
